

## HEXAPOD 6DOF FULL MOTION FORMULA SIMULATOR

- Designed to give the most realistic feeling of racing
- Full size F1 car simulator
- Made of high quality Fiberglass
- Three electrical actuators driven by high quality servo motors
- Zero lag (no-delay) between the game itself and motion provided thanks to our
- special software
- Premium quality 5.1 surround sound system
- Supports rFactor game
- Operation timer and counter.
- 3 monitor system to maximize the visuality
- Full Motion platform system for realistic G-Force simulation
- Gives the Feeling of the motor vibration, car acceleration & brake, turns, tires suspensions and even car hit.
- Easy installation less than one hour
- For in door and out door
- Emergency Stop button for safe riding and operation
- Can be operated by only one person.
- All the above mentioned parts are garantee for 2 years

<u>Dimensions :</u>	• <u>Static:</u> 5m/2m/2,5m
	<u>Moving:</u> 6m/4m/3m
<u>Weight:</u>	● <u>Brut:</u> 625kg
	<u>M2/Kg:</u> 7,5kg
<b>Voltage and Amperage :</b>	380W 16A 3 phase power
<u>Video :</u>	3 units LED Full HD 32" 3D TVs
Sound:	High quality 5.1 sound system (600W)
Steering Wheel:	100% made of metal force feedback steering system with Ferrari Thrustmaster steering wheel
Pedal Set :	<ul> <li>100% made of metal with real stiffness professional pedals.</li> <li>Adjustable Pedals with realistic pressure</li> </ul>
	Pedals position is calibratable by a button in the cockpit to fit all people
DOF:	6 Defrees of Freedom

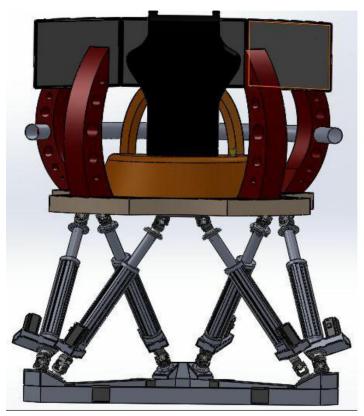

- Designed to give the most realistic feeling of racing
- 3 monitor system to maximize the visuality
- Full Motion platform system for realistic G-Force simulation
- Gives the Feeling of the motor vibration, car acceleration & brake, turns, tires suspensions and even car hit
- Premium quality 5.1 surround sound system
- Supports more than three Games rFactor, Dirt 3 and F1 2013/2014.
- Professional Sport cars seat (Sparco seat) with seatbelt
- Zero lag (no-delay) between the game itself and motion provided thanks to our special software
- Able to receive replica full size or half size F1 car
- Easy installation less than one hour
- For in door and out door
- Emergency Stop button for safe riding and operation
- All the above mentioned parts are garantee for 2 years
- Can be operated by only one person.
- For in door and out door

<u>Dimensions :</u>	• <u>Static:</u> 2,3m/2m/2,3m
	<u>Moving:</u> 6m/4m/3m
<u>Weight:</u>	• <u>Brut:</u> 180kg
	<u>M2/Kq:</u> 6kg
<u>Voltage and Amperage :</u>	380W 16A 3 phase power
<u>Video :</u>	3 units LED Full HD 32" 3D TVs
<u>Sound :</u>	<ul> <li>High quality 5.1 sound system (150W)</li> </ul>
Steering Wheel:	<ul> <li>Professional Force Feedback steering wheel System (Sparco Wheel or ThrustMaster Wheel)</li> </ul>
Pedal Set :	<ul> <li>100% made of metal with real stiffness professional pedals.</li> <li>Adjustable Pedals with realistic pressure</li> </ul>
<u>DOF :</u>	• 6 Defrees of Freedom

- 2 Passenger Cockpit
- Ergonomic Sparco seats
- Cockpit with ventilation system
- 360 Degree Pitch & Roll Rotational motion simulation
- Powered with high quality position controlled motors.
- Variety of Interactive Flight & Roller Coaster tracks
- Premium quality 5.1 surround sound system
- Zero lag (no-delay) between the game itself and motion provided thanks to our
- special software
- High Definition wide warped Projection screen
- HD Cockpit Camera for passenger safety and audience
- 2 Sets of Throttles & Joysticks for the users to be used in flight games
- Emergency Stop button for the passengers.
- Very easy operator interface.
- Passenger counter with ability of sending daily reports by email.
- 3mins 10secs of time slot for Roller Coaster and adjustable game timer for Flight games
- High customer Volume and a total crowd puller.
- Can be operated by only one person.
- All the above mentioned parts are garantee for 2 years
- For in door and out door

<u>Dimensions :</u>	• <u>Static:</u> 3,5m/3,4m/2,3m
	<u>Moving:</u> 3,5m/3,4m/4,1m
<u>Weight :</u>	• <u>Brut:</u> 1950kg
	<u>M2/Kg:</u> 11kg
<u><b>Voltage and Amperage :</b></u>	• 380W 30A 3 phase power
<u>Video:</u>	High definition projector (Vilsonic) - Curve system
Sound:	<ul> <li>High quality 5.1 sound system (150W)</li> </ul>
<b>Motion During Operation:</b>	<u> </u>
	counterclockwise direction. The maximum_velocity the pitch axis
	will produce is 90 degrees per second.
	The Roll Axis will rotate the cockpit in either a clockwise or
	counterclockwise directionThe maximum velocity the roll axis will produce is 90 degrees per second.
	The Vertical Lift System raises and lowers the main assembly into the load and ride positions.
	into the load and the positions.

- Full size F1 car simulator
- Made of high quality Fiberglass
- Three electrical actuators driven by high quality servo motors
- Zero lag (no-delay) between the game itself and motion provided thanks to our
- special software
- Supports two games Codemaster F1 games and rFactor
- Operation timer and counter.
- 3 monitor system to maximize the visuality
- Full Motion platform system for realistic G-Force simulation
- Premium quality 5.1 surround sound system
- Easy installation less than one hour
- For in door and out door
- Emergency Stop button for safe riding and operation
- Easy to transport with 2 electrical or manual forklifts
- Can be operated by only one person.
- All the above mentioned parts are garantee for 2 years
- Very interesant product with its low budget

<u>Dimensions :</u>	• <u>Static:</u> 5m/2m/0,8m
	<u>Moving:</u> 5m/2m/1,9m
<u>Weight:</u>	• <u>Brut:</u> 425kg
	<u>M2/Kg:</u> 3,5kg
<b>Voltage and Amperage :</b>	• 220W 16A 1 phase power
<u>Video :</u>	• 3 units LED Full HD 23,5" 3D TVs (optional 32")
Sound:	High quality 5.1 sound system (150W)
Steering Wheel:	• 100% made of metal force feedback steering system with Ferrari Thrustmaster steering wheel
	Thrusundster steering wheer
Pedal Set :	• 100% made of metal with real stiffness professional pedals.
i cuai sei .	Adjustable Pedals with realistic pressure
	Pedals position is calibratable by a button in the cockpit to fit all people
<u>DOF :</u>	• 2 Defrees of Freedom

# SLIDING MOTION SYSTEM F1 SLIDING 3DOF SIMULATOR

- Full size F1 car simulator
- Made of high quality Fiberglass
- 3 monitor system to maximize the visuality
- · Three electrical actuators driven by high quality servo motors
- Maintenance free Self -lubricating slides
- Zero lag (no-delay) between the game itself and motion provided thanks to our
- special software
- Premium quality 5.1 surround sound system
- Supports two games Codemaster F1 games and rFactor
- Operation timer and counter.
- Full Motion platform system for realistic G-Force simulation
- Easy to transport with 2 electrical or manual forklifts
- Can be operated by only one person.
- Easy installation less than one hour
- For in door and out door
- Emergency Stop button for safe riding and operation
- All the above mentioned parts are garantee for 2 years
- Very interesant product with its midle budget

I COMMITTEE TOWN
• <u>Static:</u> 5m/2m/1,75m
<u>Moving:</u> 6m/3,2m/1,75m
• <u>Brut:</u> 575kg
<u>M2/Kg:</u> 1kg
• 220W 16A 1 phase power
• 3 units LED Full HD 23,5" 3D TVs (optional 32")
High quality 5.1 sound system (150W)
• 100% made of metal force feedback steering system with Ferrari
Thrustmaster steering wheel
<ul> <li>100% made of metal with real stiffness professional pedals.</li> </ul>
Adjustable Pedals with realistic pressure
Pedals position is calibratable by a button in the cockpit to fit all
people
3 Defrees of Freedom

- Full size F1 car simulator / Show Car
- Made of high quality Fiberglass
- 3 monitor system to maximize the visuality (optional)
- Premium quality 5.1 surround sound system (optional)
- Supports two games Codemaster F1 games and rFactor (optional)
- Easy to transport with 2 electrical or manual forklifts
- Can be operated by only one person.
- Easy installation less than one hour
- For in door and out door
- All the above mentioned parts are garantee for 2 years
- Very interesant product with its very low budget

<u>Dimensions :</u>	• 5m/2m/1,25m
<u>Weight:</u>	Brut: 225kgs (300kgs for Static Simulator)
Voltage and Amperage (optional):	220W 16A 1 phase power
<u>Video (optional) :</u>	• 3 units LED Full HD 23,5" 3D TVs (optional 32")
Sound (optional):	High quality 5.1 sound system (150W)
Steering Wheel	• 100% made of metal force feedback steering system with Ferrari
<u>(optional):</u>	Thrustmaster steering wheel
Pedal Set	<ul> <li>100% made of metal with real stiffness professional pedals.</li> </ul>
<u>(optional) :</u>	Adjustable Pedals with realistic pressure
	Pedals position is calibratable by a button in the cockpit to fit all people

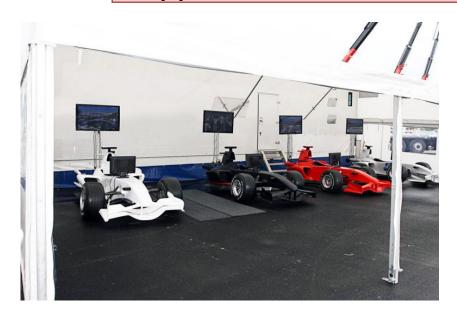

- Half size F1 car simulator / Show Car
- Made of high quality Fiberglass
- 3 monitor system to maximize the visuality (optional)
- Premium quality 5.1 surround sound system (optional)
- Supports two games Codemaster F1 games and rFactor (optional)
- Easy to transport with 2 electrical or manual forklifts
- Can be operated by only one person.
- Easy installation less than one hour
- For in door and out door
- All the above mentioned parts are garantee for 2 years
- Very interesant product with its very low budget

<u> Dimensions :</u>	• <u>3.5m/2m/1,25m</u>
<u>Weight :</u>	Brut: 130kgs (180kgs for Static Simulator)
Voltage and Amperage (optional):	• 220W 16A 1 phase power
<u> Video (optional) :</u>	• 3 units LED Full HD 23,5" 3D TVs (optional 32")
Sound (optional):	High quality 5.1 sound system (150W)
Steering Wheel	• 100% made of metal force feedback steering system with Ferrari
(optional):	Thrustmaster steering wheel
Pedal Set (optional):	<ul> <li>100% made of metal with real stiffness professional pedals.</li> <li>Adjustable Pedals with realistic pressure</li> </ul>
	Pedals position is calibratable by a button in the cockpit to fit all people
